Create stunning databases

FileMaker® Pro 12 is the fastest way to create stunning databases for you and your team. Now you can quickly build solutions that are crisp, clean and make you more productive than ever.

Instantly change the look of your layout by applying one of 40 stunning, new themes specifically designed for your iPad, iPhone and desktop. Each theme comes with pre-defined fonts, colors, and object styling. Just a few clicks and your layout has a professional, new look.

Get new built-in design tools to more easily tailor your layouts the way you want. Use rulers, guides, and grids to get the precision you need. Select gradients, transparencies, and image slicing to further customize your layouts.

Display interactive states in objects such as hover, pressed, or in focus. And if you don't like the changes you've made, undo your changes multiple times — so you can experiment with your layouts as much as you'd like.

Tackle any task – Get built-in professionally designed Starter Solutions and layout themes to help manage your tasks in minutes.

Create custom databases – Build a database tailored for your unique needs. To get started, just drag and drop Microsoft Excel data into FileMaker Pro.

Produce reports - Get step-by-step reporting tools, including eye-catching charts, to help manage and automate tasks. Easily create and email reports in Excel or PDF.

Share in a couple of clicks - Safely share with iPad, iPhone, Windows, and Mac users over a network with up to nine others.

Publish data to the web - Securely publish your databases to the web in a few clicks. Create surveys, registration sites, customer feedback forms, and more.
